TINGUISHED EDUCATOR THINKS OF THEM.— Dr. John D. Philbrick, ex-superintend-ent of the Boston public schools, and one of the most widely-known of American PITTING OF SMALL-POX educators, is in the city. The Doctor gave the pupils of the High school a pleasant little talk at the opening exercises yester-day morning, after which he visited Central, colored Normal, and Navy Hill schools, in company with City Superintendent Gar-nett and ex-Superintendent Peay. Dr. Phil-brick made a critical examination of most of the classes in each of these buildings, and expressed bimself highly pleased with the proticioncy of the scholars, the system, and mode of teaching. He acknowledged that the children excelled those in similar grades of the Boston schools, and was so much struck with the superiority of our system over that of the Quincy system that he took many notes, and also a copy of the last intermediate examination questions, together with some specimen papers of the work of pupils, to show his Boston friends what the schools are doing here.

### What the Legislature Would Give the Stock Jobbers of the Danville Road.

Of the original loan to the Danville road by the State of Virginia there is now due for money borrowed. Six months' interest. There is also due a judgment on account of stock parchased. With eleven years' interest thereon. \$420,000

For convenience say, in round numbers, \$475,000 The Senate bill allows this sum to be

paid in the State bonds, to be hereafter issued under the Riddleberger law, at par. Now, to get \$175,000 of these Riddlebergers would take in peelers, funding them at 69 per cent., as the law provides, \$688, 405. But peelers can now be bought at say 35 cents. Therefore \$688,405 face value of peelers would cost only \$240,941.55. It follows then, conclusively, that the Senate bill authorizes the Danville railroad to pay its debts to the State at half price, or about fifty cents in the dollar. A clear gift to the railroad, in round numbers, of two hun-dred and forty thousand dollars.

Why is this done? The stock of the

Aid for Fire Sufferers-Meeting for Their Benefit Last Night. Pursuant to a call issued by Mayor W. Carrington, a meeting of citizens was held last night at Monticello Hall, the ob-

his motion Mayor Carrington took the chair. On motion of Mr. George Thackston, Mr. P. J. Burton was requested to act The Chairman stated the object of the meeting, after which Major A. M. Keiley lent, he thought it would be well to hear from these gentlemen in order that their

statements might be taken as a basis for the action of the meeting.

Mr. Norman V. Randolph said he had

seen all but two of the sufferers, and it was his opinion that an exaggerated idea of the needs of the case prevailed. He had spent \$166 and collected \$110,30, and he thought that \$200 would be sufficient to replace all loss incurred. Some were really in need, but the men were able to take care of them-He then instanced such eases as had from personal investigation found to be in want. He stated that the operatives at Tanner's foundry had taken up a col-lection, amounting to \$26, for those workit necessary to tax the general people more than necessary, as they every day had calls which claimed attention. He day had calls which claimed attention. He thought \$250 would meet the requirements of the occasion. He said Mr. Crutchfield, of the State, had in hand about \$126, which could be used. He said the loss was considerable to those who suffered, but it would not take much to replace the same, He had already given one week's provision
